HIGH PERFORMANCE HOLE CUTTING SYSTEM

**Model 1660
Gas Powered System**

The unique modular design of the Wheeler-Rex Hole Cutter system allows easy, one man operation for creating taps and hole cutting in non-pressurized lines. Set-up usually takes only 5 to 10 minutes.

The Wheeler-Rex Hole Cutting System can be used on ductile and cast iron pipe, reinforced concrete pipe, plastic and clay tile.

The basic Hole Cutter System comes standard for pipe up to 20", however this capacity can be easily increased by adding chain to the hold-down mechanism.

Model 1660 Gas Powered System with Water Valve Assembly

Operating Specifications: 3 hp., 2-cycle engine

Model 1661 Air Powered System with Water Valve Assembly

Operating Specifications: 80 psi. @ 96 CFM, 300 RPM, filter regulator and lubricator included

Model 1662 Electric Powered System with Water Valve Assembly

Operating Specifications: 120V, 11.5 AMP, 350 RPM

Model 1663 Hydraulic Powered System with Water Valve Assembly

Operating Specifications: 1500-2000 psi. (105-140 Bar), 7-9 gpm. (26-34 lpm.)

Model 1664 Hole Cutter System less drive

Hole Cutter Shells

Wheeler-Rex factory original hole cutter shells ensure factory original performance of your air, gas, electric or hydraulic-powered system.

**Model 1661
Air Powered System**

**Model 1662
Electric Powered System**

Nominal Hole Size	Clay Concrete	Reinforced Concrete, Clay, Ductile & Cast Iron	Plastic
4" (100mm)	3395*	6395*	4395
4-1/2" (112mm)	3450*	6450*	4450
6" (150mm)	3595*	6595*	4595
6-1/2" (172mm)	3650*	6650*	4650
8" (200mm)		6800*	4800

*Water coolant required
