HOT TAPPING SYSTEM

The fast, easy way to drill holes from 3/4" to 2" in active, pressurized steel, cast iron, ductile, copper and plastic water lines

Meet the fast, easy way to drill holes in pressurized water lines. The Hot Tapping System from Wheeler-Rex lets you make 3/4" - 2" connections in just minutes without the need to shut off the water supply.

Lightweight, the Hot Tapping System is hand operated and can be easily set-up and operated by one person. The unit assembles and disassembles quickly and stores in a handy case. Safe for potable water lines, up to 150 PSI.

Hot Tapping System Features:

- Hole cutting capacities range from 3/4" to 2" OD
- Cutters available for cast iron, steel, ductile, copper and plastic pipe
- Heavy duty construction for maximum durability
- All stainless steel, brass and aluminum construction
- Comes complete with ratchet, convenient tool box and accessories
- Adapters available for various corporation stops and valves

Shown with optional adaptors and cutter shells.
