MODEL 8209

# HOT TAPPING SYSTEM

**3/4" - 2" CTS FLARE/COMPRESSION FOR PLASTIC, DUCTILE IRON, CAST IRON**

The fast, easy way to drill holes from 3/4" to 2" in active, pressurized plastic, ductile or cast iron lines.

MODEL 8209

# HOT TAPPING SYSTEM

3/4" - 2" CTS FLARE/COMPRESSION FOR PLASTIC, DUCTILE IRON, CAST IRON

The best way to drill holes in pressurized water lines without having to shut the water off or drain the system down. The WHEELER-REX 8209 kit is WHEELER-REX's most complete kit, including CTS Flare and Compression adapters that will allow you to make 3/4" - 2" connections. Light weight and easy to use, all WHEELER-REX hot tap kits are hand operated and can be set-up and operated by one person. The unit can be easily assembled and disassembled and stores in a heavy-duty tool box that features foam inserts that will protect your tool during transportation and on the job site. Safe for water lines up to 250 PSI.

\*Please note the system attaches through a corporation stop and/or full-port ball valve and saddle on your pipe, WHEELER-REX does not provide stops or saddles\*

## FEATURES:

- Hole cutting capacity range from 3/4" to 2"
- Cutter shells to cut plastic, ductile and cast iron
- Heavy duty construction allows for maximum durability
- Comes complete with a ratchet, heavy duty tool box and accessories
- Other adapters and kits are available to help tackle any job

## KIT INCLUDES:

- |               |                                |               |                             |
